CVWD IS EMERGENCY PREPARED

CVWD is committed to emergency preparedness, ensuring the community has reliable access to water when it's needed most. We are well-equipped with a vast water supply and a network of 35 reservoirs, which together hold a total storage capacity of 93 million gallons. This extensive infrastructure allows us to quickly respond to emergencies and maintain service during unforeseen circumstances. Our proactive planning and continuous monitoring help safeguard against disruptions, giving customers confidence that they will have the water they need, when they need it.

Water Savvy LANDSCAPE CONTEST

OUR COMMITMENT TO EDUCATING STUDENTS

CVWD is dedicated to inspiring the next generation through education, offering engaging field trips to our Environmental Learning Center (ELC) and guided tours of our Lloyd W. Michael Water Treatment Plant. In 2024, we proudly educated over 900 students from 1st to 12th grade on topics such as the water cycle, energy conservation, water technology, careers in the water industry, and more. A special thank you to our valued education partners, the City of Rancho Cucamonga and Edison for helping make these impactful learning experiences possible!
